VOWAPEX

All of these seasons
sweatshirts have been carefully
manufactured to our specifications - including
screen printed logos, appliques, and custom fleece
colors. Each garment is made from high quality,
heavy weight fleece - with under arm gussets, Lycra
reinforced ribbing, and cover stitched seams. Zip hoods
have color matched zippers. All garments have
a full and relaxed fit.

Why Ceramics?

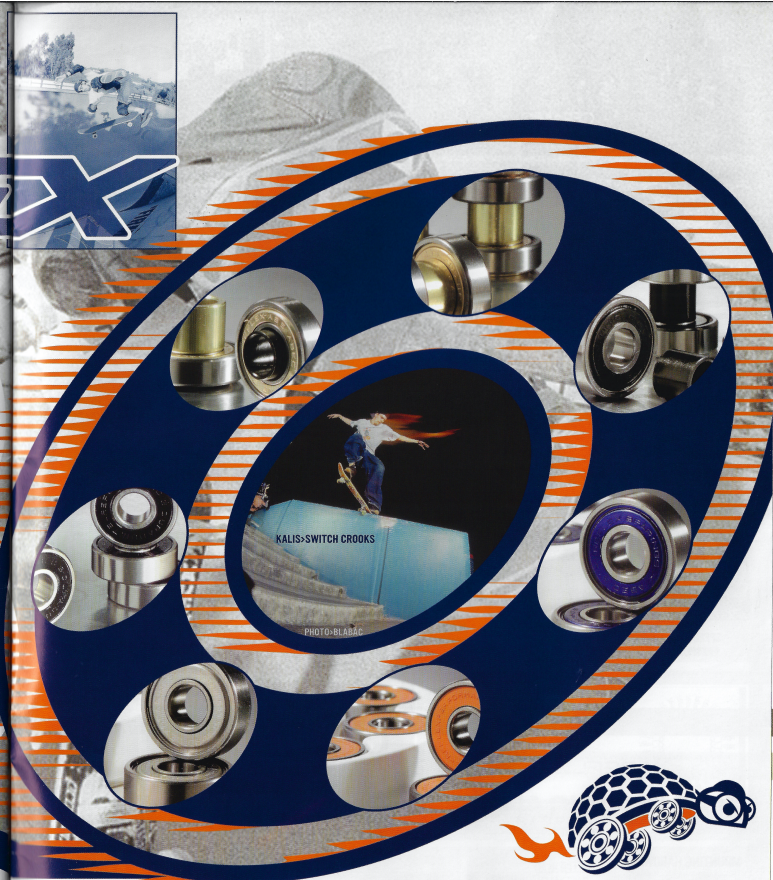

CERAMIC BEARINGS

Ceramic balls can be made to a much more exact roundness than steel balls. The balls have a micron finish. This creates less friction and, in turn, much more speed. Ceramic balls are harder than steel balls making them almost impervious to flat spotting and gives them a longer life than steel balls. Combined with this low friction and 2.5 balls in the load zone, these are the strongest, fastest, bearings you can buy.

Available in A.B.S. & 8 Ball Cheetahs.
